

USBCAP1 Installation Instruction Windows 7 (64-bit)

Go to

http://97.74.45.196/drivers/USB-AVCPTSetup_For_Win7.zip

and run the install program.

At this point you can update the drivers manually...

1. Right-Click on MY COMPUTER, Select PROPERTIES.
2. Select HARDWARE
3. Select DEVICE MANAGER
4. Scroll down to the USB Video adapter.
5. Right Click on the Device and select UPDATE DRIVER.
6. Do NOT allow Windows to automatically find the drivers.
7. BROWSE to the Folder you created at the beginning and direct it to the correct folder for your operating system. STK1150 should appear.
8. If you do not have a CD, you can download the full ULEAD Version 10 from here:

<http://97.74.45.196/drivers/AVCPTsfwe.zip>

9. **Serial Number/Activation Code:** 783A2-8A000-05520458

If the USB-AVCPT does not appear in Device Manager clean without errors (both USB Audio and USB Video/STK1150) you may need do it differently:

From Device Manager, Right Click on the USB 2.0 Video Controller and UNINSTALL.

ACTION >> Add Legacy Hardware >> Install the Hardware that I manually select from a list (Advanced) >> Imaging Devices >> Have Disk >> Go to the File Folder and Select STK1150 and Select OPEN.
